Holiday Wishes

Maddie's Fund

Research Grants

We encourage and enable research within the animal welfare industry that tests innovative ideas, projects and programs in order to break through barriers, boundaries and obstacles to save more pet lives.

Education Grants

We look to the immense abilities, knowledge, and enthusiasm of people and organizations to help us recruit more supporters and innovators in this new era of animal welfare.

Innovation Grants

Maddie's Fund® is offering up to \$5,000 to implement a new program at your shelter or rescue organization that will advance lifesaving.

We partner with the Rachael Ray Foundation to offer [Rachael Ray Save Them All Grants](#) to Best Friends Network partners.

We are interested in funding projects that will reduce shelter deaths in your community.

Proposed projects **MUST** demonstrate, with statistics, a direct impact on saving lives and/or leading to a reduction in shelter deaths.

Projects can be related to:

- Targeted spay/neuter
- Adoption initiatives
- Trap-neuter-return or return-to-field projects for community cats
- Intake prevention programs
- Any other projects that will directly reduce shelter deaths in your community

We anticipate opening another RRSTA grant cycle in the fall of 2019.
